Hello Jane,

Last night while you were fast asleep, I came in to find the tooth you left for me. What a beautiful one! There I must say, you must be brushing and flossing them night and day :)

With a wave and a swoosh of my magic wand I have turned your tooth into a gift that I knew that you'd want. I no longer take the teeth you see, I keep only your memories and store them away.

I leave a gift when your teeth are well taken care of, so be sure to visit your dentist on a regular basis. The healthier they are, the happier I'll be, so be sure to keep up the great work and the rewards you shall see.

Take care,
The Tooth Fairy

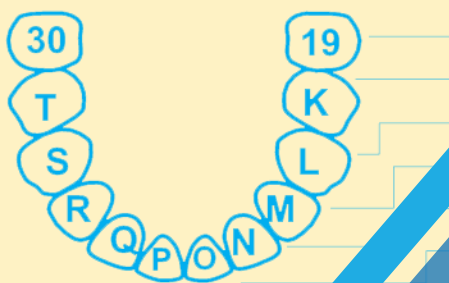

Baby Teeth Chart

Primary Teeth

Erupt	Shed	Upper Teeth
8-12 mos	6-7 yrs	Central Incisor
